The Essex Aggie Campus

Campus Views

Photo Album

This collection was created so that there would be a permanent record of all the areas and buildings of the Essex Aggie Campus, past and present.

With the prospect of the school's merger with North Shore Technical High School and Peabody High School's vocational programs the importance of the creation of this collection became evident. Once the merger begins the face of the Essex Aggie campus will change drastically.

This is a work in progress and additions to the collection will be made as they become available.

Thanks to Glen Dagley (school staff), Donald Cyr (Class of '56) and Peter Tierney (Class of '75) for their assistance in the collection of these photographs.

Charles Main, Class of '56
